DON'T KNOW

what a comfort it is to have ready at hand a remedy that never fails to relieve Constipation, and that, without pain or discomfort, and almost immediately cures head-aches, and dispels every symptom of Dyspepsia. Such a remedy is found in Simmons Liver Regulator—not a sweetened compound to nauseate, or an intoxicating beverage to cultivate an alcoholic appetite, but a medicine pleasant to the taste, and perfectly harmless when given to the smallest child. S. L. R. never disappoints. It possesses the virtues and perfections of a reliable remedy of the kind endorsed by eminent physicians.

"It affords me pleasure to add my testi-
mony to those you receive annually in
reference to your valuable medicine. I
consider Simmons Liver Regulator the
best family medicine on the market. I
have prescribed it with excellent results."

STEPS should be taken at once to have the Arizona exhibit at Chicago taken to San Francisco for exhibition at the Midwinter Fair. Nearly all of the exhibits belong to private parties, and their consent can be had to make the display at San Francisco. The glass cases etc are the property of the territory and can easily be shipped. A mineral exhibit at San Francisco will be a drawing card, while an extensive showing of products of our soil cannot but be of great value to us. Let the people of the territory act quickly and in concert. The newspapers of the territory which father such enterprises must stir up the people of their respective sections on this important matter.

CURTIS, the actor who has just been acquitted by a jury in San Francisco on a charge of killing Policeman Grant, was well known when a boy in his native town, Detroit, by the editor of the PROSPECTOR. His right name is Strellinger. His father kept a beer garden and young Strellinger o' Curtis attended the same school as ye editor. His father became very wealthy and it is due to this fact that Curtis was able to save his neck from the gallows. The old man is said to have spent the larger part of his fortune in behalf of his son's freedom.

SOME ONE suggests that a law should be enacted making capital punishment the penalty for betraying a trust imposed in a man by his constituents. To put this in English, a man who was elected to congress on a promise to vote and work for free coinage of silver and then changed his mind and voted to demonetize it ought to be hung upon his return home, after being given an impartial trial. This is a proper spirit, but how in the name of justice can this law be enacted when these same fellows make the laws? They are not going to pass an act compelling them to commit suicide.

Dandruff is an exudation from the pores of the scalp that spreads and dries, forming scurf and causing hair to fall out. Hall's Hair Renewer cures it.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs. Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

NEWS BY WIRE.

Curtis has been acquitted in San Francisco, of the murder of policeman Grant after three trials.

Vice president Stevenson it is said will have the deciding vote in the senate on the repeal of the Sherman law. He is reticent on the way he will cast his vote.

Three thousand people assembled on Thursday at Cooper Institute in New York to listen to speeches in behalf of free coinage of silver. Enthusiasm was unbounded. Speeches were made by Bynum of Nebraska, Gen. Warner, Bartine of Nevada and J. G. Boyd.

During twelve hours ending Friday night four inches of rain fell in New York city. It was accompanied by a tornado. Great loss of property resulted. Telegraph lines are prostrated. Long Branch is almost obliterated. The storm extended a thousand miles along the coast, causing great loss of life and property.

Senator Hill addressed the senate yesterday. He favored bimetalism and believed in coining silver on an international agreement at a 16 to 1 ratio. He accused Cleveland of attempting to lead the country to monometallism. He believed, however, in the unconditional repeal of the Sherman act.

Ten million dollars in gold packed in canvas sacks came into Kansas City Friday on the Santa Fe train from San Francisco. The money was guarded by ten U.S. deputy marshals armed with rifles. The gold is for the sub-treasury of New York city.

FOR OVER FIFTY YEARS.

An old well-tried remedy.—Mrs Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It is pleasant to the taste. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind.

Files, Itching Files

Symptoms—Moisture intense itching and stinging, most at night; worse by scratching. If allowed to continue tumors form which often bleed and ulcerate becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration and in most cases removes the tumors. At druggists or by mail for 50 cents. Dr. Wayne & Son, Philadelphia.

THE "KICKER" KORNER

BY GOSH.

FROM CHICAGO.

Our Special Correspondent Has
a Time Filled with
Adventure.

I am here in Chicago at last, at least part of me is here. The larger part is strewn along the road. We sailed along smoothly in a car with beds in it until we reached Kansas City, when a lady friend whom I discovered had a recollection of my brother Dan, got off the car to see a friend. The measly conductor refused to wait for her and the train pulled out for the Fair without her. I waited at St. Louis for her for six days, but she didn't come. I had given her my watch and purse for safe keeping; the check for my blankets is also here. I am surprised that brother Dan should be acquainted with such women as I find live in this part of the country.

Kansas City is a great city. They

have cars running without horses and buildings higher than our hoisting works.

When I arrived in Chicago a great crowd was at the landing to meet us. I was the center of attraction until a policeman came and took away both of my pistols and skinning knife. They don't carry weapons here and a fellow has to be crowded and pushed around without making any outward resistance.

After hunting around all day for the Arizona building on the Fair grounds I was about giving the job up when I saw three men who had a bottle sitting on the steps of a private dwelling. They asked me if I wasn't dry, which was the first kind word I had heard all day. I sampled the contents of the bottle and told my story. And would you believe it, Billy, that private dwelling looking place was the Arizona building and the man with the bottle was the commissioner in charge. It was my first feeling of happiness since leaving the gulch.

The Arizona building is more attractive inside than out. Every man has a cupboard with his name on it where he can leave his coat and vest and side arms during his stay.

Tell the boys to bring their flasks along as this is a temperance colony. It is hard to explain what I have seen. I rode on one of the fans of a big windmill run by steam.

I have talked through a big machine that a man told me could be heard 500 miles away.

I have ridden on a car that runs on a telegraph wire on top and wheels on the bottom.

But I am getting tired of it and wouldn't give one good cow pony for all of their new fangled machines that are squeezing the two bit pieces out of every tenderfoot that plays at their game.

All of the big buildings have shafts and a cage running clear up to the roof instead of down in the ground.

I had a bunk on the sixth level. This is called the Arizona hotel. Candles are furnished each guest on retiring so I had no use for the directions you wrote about blowing out the gas. The proprietor is a man who understands his business. He keeps two burros in the back yard and their familiar sound at intervals during the night is appreciated by the boarders. On Sunday he has a cock fight and on other days he has a man hired to stand at the bar with a piece of rich rock "from his big bonanza mine." This man and rock are worth \$300 a day to the house.

The success of Mrs. Annie M. Beam, of McKeesport, Pennsylvania, in the treatment of diarrhoea in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johnstown Pa., after the great flood, on account of my husband being employed there. We had several children with us, two of whom took the diarrhoea very badly. I got some of Chamberlain's Colic, Cholera and Diarrhoea Remedy from Rev. Mr. Chapman. It cured both of them. I knew of several other cases where it was equally successful. I think it cannot be excelled and cheerfully recommend it." 25 and 50 cent bottles for sale by Druggists.

ARCHIBALD CLAVERING CENTER, the author of "Mr. Barnes of New York," and kindred works of fiction, is making hay while the sun shines. He is reported as saying frankly: "I don't believe people will read my truck much longer, and I am going to load them up while they want it."

A Bright Lad,

Ten years of age, but who declines to give his name to the public, makes this authorized, confidential statement to us:

"When I was one year old, my mamma died of consumption. The doctor said that I, too, would soon die, and all our neighbors thought that even if I did not die, I would never be able to walk, because I was so weak and puny. A gathering formed and broke under my arm. I hurt my finger and it gathered and threw out pieces of bone. If I hurt myself so as to break the skin, it was sure to become a running sore. I had to take lots of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. It has made me well and strong."
